The above meeting is postponed to the 26th June.

NEWS OF THE MORNING.

The National Republican Convention met at Philadelphia yesterday, and an abstract of the proceedings so far will be found in our columns, under the telegraph head. The delegates act with harmony and enthusiasm. We shall probably receive news of the balloting this afternoon.—The Convention adjourned last evening with one of Caleb B. Smith's old-fashioned rousing speeches.

Two steamers are in from Europe, and their advices seem to have stimulated the market in New York to some degree of activity. The political news is not of great importance, although affairs with this country continue to agitate the public mind in England.

Our Kansas correspondent sets before the reader in earnest tones the condition of the free-state settlers there.

Our foreign correspondent concludes another of his valuable contributions to our columns.

Mexico is getting into a very disturbed condition again. That unhappy country is constantly the victim of warring factions.

The Convention of Kansas Aid Societies is postponed to the 26th inst., at Cleveland.

Our Common Council on Monday evening passed again the Railroad ordinances, vetoed some time since by the Mayor, with the understanding that the limit of $1,500,000 is not to be exceeded.

"THE WORKING MAN."—This is the name of the new democratic weekly, just started in this city by DOMINICK CASEY. It proposes to be independent in its course—talks in no measured terms of the assault on Sumner and the murder of Keating—is especially severe upon the Waukesha *Plaindealer*, and supports heartily the Cincinnati pro-slavery ticket.

The *Working Man* is a handsome eight column sheet.

KANSAS PARTY.—Maj. CONE, of Chicago, starts very soon with a party of 100 men, intending to celebrate their 4th of July in Kansas; to leave Iowa City on the 25th. The party bind themselves to settle permanently on "Kansas soil," "To invade no rights of others, nor allow others to invade their own," is their motto.

HELP FOR THE STARVING.—The New Yorkers have despatched the brig *N. Hand* with a cargo of breadstuffs for the Cape de Verde Islands, and are loading another vessel for the same destination, to sail immediately.

EASY FOR BROOKS.—The Democratic National Convention, thinking that that prominent member of the party, Ruffian Brooks, might not find it convenient to attend the next Convention if held in a Free State, very considerately appointed Charleston, South Carolina, as the next place of meeting!

MELANCHOLY.—The democratic presses are in despair at the loss of their favorite arguments in political campaigns, the "Hartford Convention" and "old federalism." Having nominated for President almost the only old Federalist remaining, they are in a sad quandary.

RESPECTABILITY.—The Loco Foco papers throw themselves into ecstacies with the idea that Mr. Buchanan is a "respectable" man. But they are making entirely too much of this novelty in their party. "Respectability" has been hitherto deemed such a miserable "Old Federal" idea that some of the "b'hoys" may turn their backs upon Buchanan if his "respectability is made too much of.—*Albany Eve. Journal.*

About what? What troubles your conscience, neighbor?

For the Daily Sentinel.

An Earnest Inquiry.

Let me ask, Messrs. Editors, in sober earnestness, why and what for the 4th of July is to be celebrated in Milwaukee this year in such an unusual manner?

Is it because of the glorious reign of Pierce, Douglas, Atchison and Stringfellow? Is it in honor of the fugitive slave-law? the repeal of the Missouri Compromise, or the popular sovereignty system carried out so charmingly and practically in Kansas? Or, perhaps, are we to be thankful for the existing club-law (a relic of the middle ages) recognized in Washington, the government seat of the free and the brave?

Or, Messrs. Editors, are we to rejoice and congratulate each other, on that memorable day, that are doing as well as may be under existing circumstances?

Answer me, dear sir; I am serious in putting this question, and you know it, and you will oblige a constant reader and subscriber of your paper. INVESTIGATOR.

Milwaukee, June 17th, 1856.

["INVESTIGATOR" puts us a very pertinent query. It does seem as if there were little reason, just now—when the principles of the Declaration of Independence are repudiated and despised by a very great number of the influential men of the country, to celebrate its anniversary; but let us hope that when the glowing language of that document is read, its every word sparkling with Liberty—and when the orators recall the sufferings of the men who sustained that declaration at the peril of their lives—there will be some deep thinking among the people as to what it all means.]

MILWAUKEE AND WATERTOWN R. R. CO.—The Directors of this road have spent the last two days among our citizens, taking their subscriptions. We understand the business men of Madison have subscribed to the amount of $108,000, every dollar of which will be promptly paid as it matures, and the prospect is good for at least $40,000 more. Our most careful and shrewd business men we see take hold with a will and energy that insures success. This road will be built to Hanchettville this fall, and within one year the cars will be whistling in our streets, and when completed, gives us a line to Milwaukee nearly direct, at a distance of 78 miles and a fraction over. This stock ought to be, and undoubtedly will be, worth twenty-five per cent. premium, as soon as the road is completed.—*Madison Argus.*

RAMBLES IN EUROPE, ASIA AND AFRICA.

NO. 79.

(Concluded.)

There is an authenticated Greek record of a petition being presented to the reigning king for redress against the custom of royal visitors and high functionaries in at that day, going to Philae and living at the expense of the priests. The address or petition, together with the king's answer granting relief, were engraved on the pedestal of an obelisk, the whole of which has been purloined by some English tourist, and is probably now in the British Museum. The petition only I have room to copy:

"To King Ptolemy and Queen Cleopatra his sister, and Queen Cleopatra, his wife, gods Euergetes, welfare. We, the priests of Isis, the very great goddess worshipped in Abaiton and Philae, seeing that those who visit Philae, generals, chiefs, governors of districts in the Thobaid, royal scribes, chiefs of police, and all other functionaries, as well as their soldiers and attendants, oblige us to provide for them during their stay; the consequence of which is, that the temple is impoverished, and we run the risk of not leaving enough for the customary sacrifices and libations offered for you and your children; do therefore, pray you, O, great gods, if it seem right to you, to order Numenius, your cousin and secretary, to write to Lochus, your cousin and governor of the Thobaid, not to disturb us in this manner, and not to allow any other person to do so, and to give authority to this effect; that we may put up a stella, with an inscription commemorating your beneficence towards us on this occasion, so that your gracious favor may be recorded forever; which being done, we, and the temple of Isis, shall be indebted to you for this, among other favors. Hail."

Although the temple was dedicated to Isis, yet the whole island was sacred to and constituted the triad of Isis and Osiris the parents, and Horus the son—a trinity equally high and exalted in the mind of the pagan as the Christian trinity is to the civilized people of the present day.

By the calm and placid water of the Nile, with the music of the birds and the rustling branches of the palm trees, within the shadow of the great temple, we took our breakfast that morning—We then left Philae, not without feelings of regret, for we never expect to see its like again.

We again reached and passed down the second cataract, having paid a backsheesh of two dollars to the *reis* of the cataract to bribe him to do the duty for which he had been more than liberally paid. We found, at the village just above the falls, the governor of Asouan, who suggested that a ride of seven miles down to his own city would be agreeable, and of course we invited him on board—especially as he intimated, by way of innuendo, that we should have had to stay there several days if he were not along. Another little innuendo came by way of a general hint that they had neither of them had any breakfast, although it was then ten in the forenoon. Both were then invited to a collation, and cold chickens and French wine disappeared as acres of meadows of dew would before a morning July sun. The governor was a Turk—a small, cunning, shrewd looking man, seeming a perfect contrast to the great, dark, muscular Nubian. After they had eaten up all that was set before them and smoked, the reis went about his business, and the governor, sitting with his legs under him, commenced putting on airs. Among other things, he said the reis of the cataract was very impertinent to sit down with him and eat at the same time he did; that he had to have him whipped at least five hundred times a year in order to make him know his place. Before we got to Asouan, he intimated in the strongest terms that some little present would not be disagreeable to him, but none of us would understand his hint, and he only succeeded in getting what he could eat and drink and all the *tatakeah* he could smoke during the entire two hours he was on the boat. I have no doubt he went up on purpose, and probably practices it to get his living and what he can beg of the boats as they pass. The most of them are graceless scamps and become wealthy from what they plunder by the way of exactions and taxes of various kinds from the poor, ignorant laborer.

For the next hundred miles we found that many of the villages were entirely deserted on account of there having been a recent demand made by the Viceroy of Egypt for the levying of some fresh troops in Nubia and some of the other districts bordering on the Nile. The men had all fled to the desert, leaving their little stock and crops with the women and children.—There is nothing that the poor Egyptian dreads so much as the conscript officer—they have a perfect horror of war, and well they might, for those that are enrolled hardly ever return. The casualties of battle, sickness and abuse of almost every kind, render his case a hopeless one.—Formerly, mothers put out one of the eyes of their male offspring, but Mahommed Ali created a regiment of one-eyed soldiers, and this effectually put an end to that custom. Now they cut off the five fingers of the right hand. Many men are met with not only having one of their eyes put out, but their fingers cut off also to render the precaution doubly safe. We subsequently met different companies of mounted troops marching up into the country to take the people by force.

There is no country in the world whose history is more interesting in any point of view, whether to the reader of profane or sacred writings, to the student or artist, the poet or statesman, the philosopher and the reader after general knowledge, than that of Egypt. Romo was great in everything great, and imparted her greatness to the whole world. But for all this she was indebted to Greece. Greece was great, too, but her dazzling splendour was from borrowed light, like that of the moon—her great orb, like that of the sun, was Egypt. Beyond her, history becomes mute. When Abraham entered the country he found the people settled in cities under laws peculiar to themselves, worshipping gods for whom they built altars and temples.—The arts were extensively known, and by a system of hieroglyphics long in use, their laws, records, and history were perpetuated.

Before this epoch two of the great pyramids were built by Suphis and Sensuphis, Kings of Memphis, and the great temple of Karnak and the obelisk at Heliopolis by Osirtesen II. King of Thebes. Shortly after this the Chaldean and Phœnician herdsmen, having no fixed residence, gradually moved westward, and settled in the Egyptian delta. They gradually increased until they took possession of the country, and levied tribute upon the people with whom they were quietly received. They were known as the Shepherd Kings. So great, however, became their tyranny, all the states in the valley of the Nile leagued together under Amosis, King of Thebes, and drove them from the country—Thence commenced the great line of Theban Kings that governed all the kingdoms united, extending down to the reign of Rameses III. They extended their boundaries and built temples, statues and obelisks on the Mediterranean and Red Seas. They marched their victorious armies as far north as the Black Sea, and exacted tribute from many countries which they subdued. During this time the Israelites settled in lower Egypt, and Joseph became its prime minister. Afterwards Moses was born and conducted them away.

Soon afterwards the Jews arose from weakness, and under the administration of David were becoming a powerful nation. The Trojan war was finished, and Greece began her career. But ere these events, the prosperity and glory of Thebes and the Upper Nile had arrived at their culminating point, and were soon ready to fall. The countries of the lower Nile were governed by Shishak, the conqueror of Rehoboam, but soon afterwards were rent in pieces by domestic wars. Thus was brought to pass the prophecy of Isaiah that the Egyptians should fight against each other, city against city, kingdom against kingdom, &c. At this time, about one thousand years before Christ, the city of Sais arose into power by its Greek emigrants, and she in turn conquered the other provinces. A few hundred years more passed away. Their armies were defeated on the banks of the Euphrates by Nebuchadnezzar, and this made way for the all-conquering arm of Cambyses, who was just advancing from Persia with an army as thick as the locusts of the country. Four times in two hundred years the Egyptians threw off the Persian yoke, when at last, by the union of all the Greek states, about the middle of the fourth century, before the Christian era, Persia was conquered by Alexander the Great. Egypt, of course, fell then under the rule of the Greeks once more. Alexandria was founded by the conqueror of worlds, and Egypt again became one of the principal kingdoms of the world for a period of three hundred years. During this time she was governed by the Ptolemies, a race of monarchs sprung from the lieutenant of Alexander, who, as soon as that monarch died, took possession of the country. The last of this line was Cleopatra, who gave her heart and her kingdom to Mark Antony.

Such is merely an outline of the history of this remarkable people down to the Christian era.—Two thousand years previous to that, however, was the period of her greatest prosperity, when the fame of her wealth, her cities, and her temples, extended over the then habitable part of the globe. The four thousand years of time that has passed since, have done less to efface these than the ruthless hand of man; but there is enough left to astonish the world with their vastness, and what must have been their former magnificence and splendour. F.

A Reply to Mr. Leary, of Stoughton.

We have received a reply from three of the produce buyers of Stoughton, to the statement made by Mr. Leary, justifying himself from the charge of stealing from the farmers, and appealing to us, as a subscriber, to give him an opportunity to set himself right. As Mr. Leary, in his letter, impugned the acts and motives of the other buyers, who ask a hearing, being also our subscribers, we cannot do less than to publish *their* statement, which is as follows:

STOUGHTON, June 16, 1856.

Messrs. Editors:

The whole of the wheat buyers in this market, as well as the farmers, have suspected him, and decided to watch; the result was—that through an aperture of an adjoining building, this same virtuous, maligned, persecuted Denis Leary, and Jerry Leary, his helpmate, were both seen to take nearly a whole bag of wheat from the spout of the hopper, into which the farmer was emptying his load out of his bags, from the outside of the warehouse, and instead of weighing that bag, with the others, and paying the farmer for it, as every honest man would, they very deliberately emptied it on a pile of loose wheat that was lying on the floor, remarking to one another at the same time, that they had taken too much, that it might be missed; and it *was* missed. It is therefore true, and it is the only truth Denis utters in his whole statement, when he says they only had one witness sworn; but unfortunately for Mr. Leary that witness was and is unimpeachable, and he swore explicitly and directly to these facts, and the records of the Court will prove this assertion. Their counsel did not attempt to set up any defence, but rested their case on what he called a point of law; and, indeed, we think it was a point, and a curious point too, namely, that the taking of the farmer's wheat, after it had once passed through the hopper, did not *constitute a theft, only fraud.* The six men who sat as jurors on the case, decided, after much hesitation, during which they at one time stood *five for conviction*, and although they were all satisfied that the defendants did fraudulently take the wheat, yet in view of this *curious* point of law did not constitute theft, and acquitted them.

So much for the trial. As to the rest of Denis Leary's statements, they are quite in character with his previous one. Denis says that he buys nine-tenths of all the wheat that comes in here. What an unmitigated, unblushing *lie*, capable only of coming from a man lost to all sensibilities of shame. The statistical figures of the Rail Road book will show that out of about 160,000 bushels shipped from this point during the last fall, Leary did not ship over 35,000; and out of 24,000 this spring, up to this date, he has not shipped over 7,400.

These are facts, Messrs. Editors, and out of justice to us who are *likewise* your regular subscribers, as well as justice to the *truth*, we trust you will lay it before the public, so that truth and honesty may be encouraged and discriminated, and vice, falsehood, and crime, exposed to the detestation of all good men.

We are respectfully your most obedient,

Kansas Meeting at Palmyra.

At a meeting held in the Presbyterian Church, on the 15th instant, to hear an address by Prof. Daniels, on the state of affairs in Kansas, Jacob Skinner, Esq., called the meeting to order, and on motion, Justus Carpenter was elected as President, and T. P. Turner appointed Secretary.

The Reverend Mr. Emory opened the meeting by prayer.

Jacob Skinner, Esq., stated the object, and introduced Prof. Daniels, who, in the most eloquent and thrilling language, narrated the scenes he witnessed on his late tour through Kansas, vividly depicting the outrages on life and property, committed by the pro-slavery intruders, (the Border Ruffians), and clearly proving that, unless material and effectual aid was immediately sent to the heroic free settlers who are now there struggling for Freedom, Kansas will fall under the blighting curse of Slavery.

A subscription was taken up, and the sum of $26,47 paid over to Prof. Daniels to be placed to the Kansas Aid Fund; and the further sum of $21 50 promised, together with $7 50 per month as long as the Aid Society shall be organized; also other serviceable commodities were donated.

The meeting then elected the following officers to form a Kansas Aid Society:

President—Justus Carpenter.
Vice President—O. F. Weed.
Treasurer—H. C. Porter.
Recording Secretary—T. P. Turner.
Corresponding Secretary—Jacob Skinner.

On motion, N. T. Smith, O. P. Dow and D. C. Porter were elected as a committee to solicit aid to the fund.

It was unanimously resolved that the proceedings and organization of this meeting, together with the sums paid and subscribed, with the amount taken up by donation, and paid over to Prof. Daniels, be published in the *Daily Sentinel* and *Free Democrat.*

Adjourned to Tuesday evening next.

JUSTUS CARPENTER, Pres't.
T. P. TURNER, Sec'y.

From Our Kansas Correspondent.

Late and Important.

LAWRENCE, KANSAS, June 7.

I wish it were possible for the country to fully realize the embarrassing, the almost overwhelming circumstances of our condition. It seems as if the devil himself, only, could devise and carry out the plans which are made use of to crush the Free State party and cause in this country, and I give his majesty, operating through his willing subjects, from Pierce down to the Deputy Sheriff of the bogus Kansas Legislature, or *up*, if you prefer it, full credit for it all.

First we have a code of laws imposed upon us by a power antagonistic to all our sympathies and interests, laws under which we cannot, as *men*, exist, but the enforcement and execution of which are assumed by the general government.—If we adopt and submit to them, we are poltroons and slaves—if we resist, we are traitors to our government, and liable to hang. We have thus far, by the orders of Pierce and Shannon, been forced and held to the very letter of all these damning enactments, at the same time we have been refused the protection guaranteed to all American citizens by the principles and constitution of our government.

The country is invaded by hordes from Missouri and other Slave States, without let or hindrance; emigrants from the North, who come as actual settlers, are stopped on their way, driven back, robbed, plundered and massacred, driven from their homes, their houses burned and property destroyed, or confiscated, disarmed by order of the government—the former, in person, assisting in the disarming, while giving the arms of the government into the hands of the invaders—the public press destroyed, and private property battered down with cannon—the leaders of the people mobbed, murdered, arrested under grave charges, on the most frivolous occasions, and incarcerated in prison for long periods of time before trial, the more effectually to subdue the people, the liberty of speech denied; and all, either by authority of law, or under circumstances, that make redress impossible.

Against all this have the Free State men held out, almost without assistance from abroad, and in their desperation, they were about to arise, and in the might of a holy cause, relying upon the God of battles, who fights with those who fight for justice and the inalienable rights of all men, to hurl the invaders from the country, when lo! just at this moment, when the indignation of an outraged North was on the point of manifesting itself, by sending to our aid bodies of men, prepared to defend their interests and ours, the President sends general orders to Col. Sumner to disperse all organized, or armed bodies of men, and repel them when from abroad. He censures his tools, Shannon and Donaldson for employing the military as posses for the Marshal and Sheriff, when the troops were at their command, and no resistance would have been offered to them. All this is very nice, now that the destruction they so much desired is accomplished—now that they have filled the country with bands of armed men—now that their men are armed with the Territorial arms, and ready and eager to harass, drive out, and destroy those who, unlike them, came here for the purpose of settlement and peace.

But, for sowing the wind, our rulers may find themselves obliged to reap the whirlwind. It is going to be a very difficult, if not an impossible thing, to suppress and quiet the excitement and animosities which have been engendered here, and which constantly seek for expression in acts of violence on both sides. They have conjured up the infernals, and now they will not down at their bidding.

Col. Sumner has taken the field with a determination to suppress hostilities.

On the 5th, as I stated in my last, he dispersed the Free State camp of Capt. Brown, near Hickory Point, or Prairie City. That they remained dispersed, is not for a moment to be supposed, especially so long as there was a pro-slavery force of some 200 men under Gen. Whitfield, in person, within a few miles of them. The Colonel proceeded from Brown's camp to that of Whitfield's camp, and ordered them also to disperse. They did so with, it is said, curses and imprecations, that "they had come to fight the d—d Abolitionists, and; they should do so." They proceeded about five miles from their former camp, and again encamped as before. They do not mean to be turned out.

The Colonel sent for the troops in this vicinity yesterday morning to repair to the Wakarusa and hold themselves in readiness to march at a moment's warning. He also sent to Fort Leavenworth for the two remaining companies of troops there. He is assembling all the force under his command for the purpose of enforcing his orders. It is reported that four companies have come down from Ft. Riley. His orders are that if any party, or company is found assembled, after having been once dispersed, they will be disarmed.

Yesterday the singular fact existed in that vicinity, of three camps of hostile forces, each antagonistic to the other two, within five miles of each other—Col. Sumner with two companies of dragoons, Gen. Whitfield with some 200 "ruffians," and Capt. Abbott, with 100 Free State men. The Col. had not visited Capt. Abbott's camp, and was probably not aware of its existence. We have not heard from there this morning.

Major Oliver told Mrs. Sherman, wife of the Committee man at Westport, day before yesterday, that they were aware of the approach of 2000 men from Iowa for Kansas, but that they would be met by Missourians, either in Iowa or Nebraska, and would not be permitted to reach Kansas. The Iowans will probably have a word to say in this matter.

The people of the Territory feel that their only hope lies in the meeting of the State Legislature at Topeka on the 4th of July agreeably to adjournment. They also feel that they are hemmed in on every side, by the arrests of many of the members of the Legislature and the probable arrest of the remainder if they can find them, by the opposition of the general or territorial government, and by the invaders from the south; but despite any and *all* of these, if necessary, they are determined to make the effort, and they look with confidence to the North for assistance, and I am sure their hopes will not be disappointed.

Col. Sumner has offered the prisoners of Lecompton the use of four rooms in the fort, and they will go over by his order, to-morrow, (Sunday.) This will be a very great relief to them from the inconveniences and discomforts of a confinement in a military camp, besides, to them and their friends, a relief from the danger of personal violence.

Mrs. Brown, wife of G. W. Brown, editor of the *Herald of Freedom*, whose press was destroyed and thrown into the Kansas river, and who is himself a prisoner on the charge of high treason for having exercised such rights only as are guaranteed to every man by the Constitution of the United States, leaves on Wednesday or Thursday next for the North and East to raise the means for starting again, as soon as possible, the paper thus destroyed "by order of the court" and thus to vindicate on this spot the freedom of speech and of the press. She will visit Milwaukee and solicit from its able and, I doubt not, willing citizens, contributions for the purchase of a new press and types, and subscriptions for the paper. I am sure that she may reasonably expect much from that city, and from the commercial emporium of that State, which has taken so high, and so noble a stand in the cause of human freedom as has Milwaukee and Wisconsin, as exemplified in the Glover case, and its attendant results; and also in their more recent efforts for free Kansas. I would suggest that some person in Milwaukee volunteer or be appointed to receive subscriptions and contributions for this object from abroad through the State, against the time of Mrs. Brown's arrival there. She will probably visit Alton, Chicago, and other places on the route before reaching Milwaukee. I do not know how soon she may be expected there. L.

HERBERT AND THE KEATING FAMILY.—The democratic press, in order to soothe the feeling aroused by the murder of THOMAS KEATING, by PHILLIP F. HERBERT, a democratic member of Congress, announced that he had given the widow a handsome residence and provided for the education of her children. This called out the following card from the murdered man's brother:

WASHINGTON, June 4, 1856.

A report has been extensively published that the Hon. P. F. Herbert had given to the wife of my brother, Thomas Keating, a handsome dwelling and money to educate her children. If the intention of the author was to create public opinion in favor of Mr. Herbert, I deem it my duty to deny that Mrs. Keating received any such favors from him. There is no foundation whatever for such a report; and I have never heard any person say that he ever expressed any regret for the act by which a widow and two orphan children were left solely dependent on the charity of the world.

There has been generously presented to the widow the sum of five hundred dollars ($500) subscribed by the guests of Willard's Hotel.

By publishing the above you will confer a great favor, and an act of justice on the lamented family of my late brother. Very respectfully, sir, your obedient servant,

P. M. KEATING.

☞ There probably could not have been made a stronger nomination at the present time, nor one that fills our adversaries with greater dismay. They see in it the destruction of the party of traitors.—*Ness.*

Substitute "friends" for "adversaries," and "we" for "they," and the *News* would have told the truth.

The series of ridiculous fizzles in the way of ratification meetings throughout the country would prove the truth of the first assertion easily enough; and if any "party of traitors" is to be destroyed it is not ours.

ROTARY.—Rotary Pump Carpenter has been at Lancaster, Pa., since the Convention, and took tea with Mr. Buchanan. He says that his (Mr. B's) "left eye squints somewhat," and that he (R. P. Carpenter) promised Mr. Buchanan 10,000 majority in Wisconsin! He'd be glad to get it!

[From the Detroit Advertiser.]

Mr. Buchanan on Phlebotomy.

In an article in this morning's *Free Press*, designed to convince its readers that Mr. Buchanan has always been a Democrat of the first water, the following statement appears:

"Another charge against him (Mr. Buchanan) is, and it will, since he is nominated, be put to some use, that he once declared that 'if he supposed he had a drop of Democrat blood in his veins, he would open them and let it out.' It is a very silly charge, and never rested upon the least foundation."

The *Free Press* is mistaken. Mr. Buchanan *did* make the identical threat or boast here charged against him; and there is on record the most unmistakeable evidence of it. The declaration was made by him in the presence of a large company of gentlemen, in the city of Lancaster, and the truth of it has never been denied either by him or his political friends in Lancaster. The writer has conversed with gentlemen of the highest respectability in that city, who heard the expression, and in 1832 the certificate of two of them, to that effect, was published by him under his very nose, without contradiction from any quarter. It was also published in various other papers, in various parts of the country. The charge has been iterated and reiterated for the last forty years, without any attempt on the part of his Democratic neighbors to dispute its truth.

Supper to Kansas Emigrants.

The Milwaukee emigrants to Kansas, to the number of two hundred and fifty men, were given a supper at the Julien House in Dubuque, on Tuesday evening, by the friends of freedom in that city. A large party assembled, toasts pronounced, speeches made, &c. It will be remembered that the Common Council of that city, at one of their meetings, stigmatized them as "banditti" and "marauders," and counseled the citizens to hold no fellowship with the "rebels" and "traitors." But the people of Dubuque believe that even Free State men have a right to emigrate to Kansas, and that they have a right to carry their political principles with them.—*Galena Advertiser*, Saturday.

THE G. D. NORRIS—THE HANS CROCKER.—The new schooner *G. D. Norris*, built at Cleveland the past winter for D. NEWHALL, of this city, made her appearance in port day before yesterday, laden with clear seasoned lumber from Pt. Huron, for the Newhall House. She has a substantial good-head look about her which well befits her name.

The three-masted schooner, the *Hans Crocker*, the last compound of plank and timber ever put together on the lakes, lay, at the same time, near the Walker's Pt. Bridge, shipping her centre-board. Capt. Stewart hopes to get off, on his first trip down, in about a week, and if our Buffalo friends do not confirm all the good things we have said about her, it will be *their* fault.

☞ While the propeller Troy was lying at her dock yesterday, she was run into by an old scow, the collision breaking in the upper works of the propeller, and carrying away the scow's bowsprit.—*Det. Adv.*

☞ The schooner *Kalkaska*, with a cargo of lumber, from Saginaw for Chicago, got ashore at the foot of Bois Blanc Island, in Lake Huron, on the 5th inst., threw over 100,000 ft., got off leaking badly, and put into Duncan Bay, where she sunk.—*Herald.*

☞ A large black top-sail and topgallant schooner was seen ashore on Point au Pelles, by Capt. Dansham, of the propeller *Toledo*, on Saturday, at 5 P. M. She had a white streak, had a signal of distress flying, and her position about a mile west of the brig *Wm. Penn.*—*Ibid.*

VESSEL GLEANED.—Capt. Ferdinand, of the schooner Wm. H. DeWitt, reports having seen this morning at 4 o'clock, between Grand River and Gravelly Bay, and about eight miles from land, a large fore and aft schooner capsized. No man or mast left to be seen. From the appearance of the bottom of the vessel, she is new.—*Buf. Com. Adv.* 13th.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, June 18, 1856.

Received by Mill. & Miss. R. R.—58 bbls 21 sacks flour, 1,550 bus wheat, 24 do potatoes, 19 bbls, 21 cars stone.

On change, yesterday morning, about 5,000 bus spring wheat brought $1, f. o. b., and afterwards 1,000 bags sold at depot at the same figure. We notice that, in Chicago, spring sold day before yesterday at 80a85c.

The New York market report, which was sent to us day before yesterday, was altered at Chicago. As reported there, it read, on wheat:

Sales of 55,000 bus, at $1,30a1 32½ for Milwaukee club, $1,41½ for Canadian club, $1,50 for fair white western, $1,50a1,75 for good to prime white Canadian, including 45,000 bus Milwaukee club to arrive, all this month, part of which is now on the lakes, and the purchaser takes risk of its arriving in time.

Very little doing in other kinds of grain, and quotations are nominal.

Wool comes in sparingly as yet, and holders of finer fleeces are in no hurry to market them. We note sales of common mixed lots by wagons at 24a28. Better grades would range from 28a35.

PEARL BARLEY DUTIABLE.—The Chicago Times states that upon an arrival of a lot of Pearl Barley at that port, Collector Conley required the payment of the duty which was paid under protest by the importers, and an appeal taken to the Treasury Department. The decision of the Collector of Chicago has been fully sustained by Secretary Guthrie, and henceforth the duty will be exacted on all imports of Pearl Barley.

DAILY SENTINEL.

Wednesday Morning, June 18.

CITY MATTERS.

POLICE COURT, JUNE 17.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Ann Pollett, for being drunk, was arrested, and finally discharged to the Poor House. Catharine O'Brien, drunk, an old offender, was sent to jail for 90 days. Harriet J Wilson, for being drunk, was sent to jail for 5 days. Thos Collins, who has been repeatedly up for rows and drunkenness, was charged with being drunk and disorderly, and fined $25. August Hanschel and Charles Mucheike, charged with being disorderly, were both found not guilty and discharged. Richard Roe (fictitious name), was fined $2 for leaving his team unhitched.

STEALING A TAILOR'S SHEARS.—A man named David D. Herald was examined on a charge of stealing from the clothing store of P. Hoffman. The evidence showed that the defendant went into the store, and, while the man was busy, stole his large scissors; the Police were sent for, and found the stolen article upon the person of the defendant. He was committed for trial, and, in default of $250, was taken to jail.

John Mahoney, charged with assault and battery upon Michael O'Connel, was tried and acquitted.

STEALING CARPENTERS' TOOLS.—The Time Cabinet.—On Tuesday of last week, two tool chests on the premises of *Davis & Bate* were broken into and robbed of a number of carpenters tools belonging to workmen in their employ.—The tools were sold to a second-hand shop—a dealer in "marine stores;" here they were seen exposed for sale and recognized. A description of the person who had sold them was obtained, and yesterday Policeman Rice succeeded in arresting the man, who gave his name as Patrick McCarty, and conveyed him to the Watch House. He will be examined to-day.

NOTE.—Since the 2nd day of November, 1855, there have been twelve hundred and ninety-one cases disposed of in the Police Court, or about seven cases each day.—It is due to the credit of the city to say, that nearly all of these—10 to 50 of them are City cases—are for drunkenness, disorderly conduct, violating bridge ordinance, &c. We doubt whether another city in the world, notwithstanding the number of *furriners* it contains, can claim as much exemption from *crime* as Milwaukee. So much for that wise system, so few cities are blessed with, of putting the Police Department in charge of an able and experienced man, and filling it with members selected, not for political position, but for a practical knowledge of their duties.

PROCEEDINGS OF COMMON COUNCIL.—The Common Council held a meeting on Monday evening, at which some business of importance was done.

The resolution authorizing the bridge at Huron street passed, Ayes 12, Noes 9.

Ald. HASBEL introduced the following resolution:

Resolved, That the Common Council of the City of Milwaukee, is in favor of limiting the amount of the city bonds to be issued to aid the construction of Railroads, to one and one half million dollars, as provided in section first—in the "Act entitled an act to authorize and empower the City of Milwaukee to loan its credit in aid of certain Railroads, and the acts amendatory thereto," approved March 21, 1854, and that any and all city bonds hereafter to be issued to aid in the construction of any Railroad shall only be issued upon the express understanding, that the aggregate amount of bonds issued to aid Railroads by the City of Milwaukee, *shall not* exceed the amount specified in the act above referred to, and it is upon this condition and understanding that this Council now pass the ordinances authorized in the issue of city bonds to aid in the construction of the Milwaukee and Beloit R. R., the Fox R. V. R. R., and the Milwaukee and Superior Railroad.

The resolution was unanimously adopted, and the ordinances passed. The time of holding the elections on the loans is as follows:

Mil. & Beloit Railroad, July 14th,
Superior Railroad, August 4th,
Fox River Valley Railroad, August 25th,

The Committee on Fire Department was authorized to procure a suitable lot upon which to erect an engine house for Company No. 1.

Permission was given to J. W. Owen to erect a bathing &c., above the dam.

The following resolutions passed:

Appointing a committee to secure a site for the engine house for Engine No. 1.

Authorizing the City Comptroller to pay for opening Oak street.

Directing the Chief of Police to remove certain fences on Spring street hill.

Directing the Commissioners of Survey to locate the extension of certain streets in the 4th Ward.

Extending the time for the opening of the extension of Van Buren street.

Giving notice for the opening of certain streets in the First Ward.

Directing the Commissioners of Survey to examine the river between Cherry and Racine streets, with a view to establish dock lines.

Laying out and establishing a new street in school section.

Authorizing the paying of the City Surveyor for services rendered on the straight cut.

Ordinance to amend an ordinance relating to the grade of Poplar street. Passed.

Ordinance relating to Camphene and other burning fluids. Passed.

Council adjourned till the next regular meeting on next Monday evening.

GUISON'S NON-EXPLOSIVE CAMPHENE LAMP.—Messrs. G. P. HEWITT & Son exhibited to us yesterday a newly patented lamp for burning Camphene, and can for supplying the same, which seem to us to possess qualities which commend them to the public use. Inasmuch as nineteenths of the injuries received from camphene are the result of carelessness in filling, or of the expansion and explosion of the fluid in lamps, the inventor has set his wits to work to obviate these dangers. We think he has completely succeeded; indeed it is difficult to conceive how an explosion could be brought about in using these articles, except by a very ingenious person, intent upon suicide.

DR. C. P. FITCH'S SURGICAL DENTISTRY.—Dr. C. P. Fitch, well known as one of the most skilful Dentists in the country, has his office on Milwaukee street, between Wisconsin and Mason streets. His continuous gum work, which surpasses any other mode for supplying an easy mastication with artificial teeth, has secured him a large patronage; while his skill as a Surgical Dentist, in the extraction of teeth, &c., &c., gives the greatest satisfaction. We speak of the latter from practical experience and observation.

PORTABLE GAS WORKS.—See Messrs. BOYD & SPENCER'S (Chicago) advertisement of Woodworth & Co's Portable Gas Works. An examination of a descriptive pamphlet and of the certificates of numerous scientific and practical men leads us to think quite favorably of them, and to recommend them with confidence.

NOT THE "GREENS."—We mentioned yesterday the remarkable marching made by a soldier who brought up the rear of the "Green Yagers." A member of that company called yesterday to say that the Greens were not out. It was the "*Black Yagers*." We cheerfully make the correction.

FREE LUNCH AT THE N. YORK DINING ROOMS.—The proprietors of the New York Dining Rooms, in Young's Hall, give notice that every morning, from 10 to 12, a Free Lunch will be ready, and invite the public to call and partake of it.

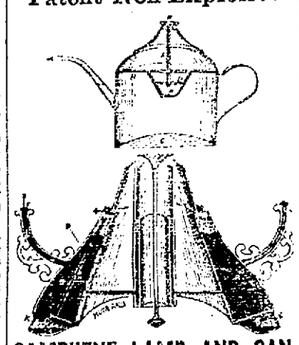
MURRAY'S ADDITION.—The large sale of lots in Murray's Addition, First Ward, comes off at Wall's this morning. The terms, one-fifth cash, are very liberal, and a great inducement to buyers in these times.

EXCURSION PARTY.—Engine Co. No. 4, of Chicago, intend to visit this city in uniform, with a party of ladies, on the 25th. Our boys will, doubtless, do the handsome thing by them.

☞ See Mr. CARY'S advertisement of 500 acres of timber land for sale near the city.

NEW ADVERTISEMENTS.

Patent Non-Explosive



CAMPHENE LAMP AND CAN.

IN OFFERING TO THE PUBLIC the admirable and long needed improvement in burning Camphene, we consider the safety and many advantages to be obtained in the use of these Lamps and Cans far in preference to the common Fluid Lamps and Cans now in use, a great benefit to community, as it is generally conceded that Camphene yields the clearest and most brilliant light of any known substance—and the only obstacle to its universal adoption has hitherto been its explosive tendency, which this improvement most happily removes.

The lamps are suitable for Churches, Public Halls, Stores, Parlors, and ordinary family use.

CITY LAND OFFICE.

THIS is to be a week long to be remembered. Transactions and operations unlike any other this week which may never, no, never offer again.

On Wednesday morning, Mr. Murray, one of our oldest and most substantial citizens, is going to have me sell his beautiful addition, the First Ward, adjoining Lockwood's Addition, and he tells me to sell the lots; he does not want any one to pay much money, and I, myself, am satisfied that every one who buys of Murray will be money in one year. Let every person be on hand on Wednesday morning, June 18th, at my store.

CITY AUCTION ROOM.

REMEMBER that Wednesday, June 18th, is the day that I shall be in your neighborhood, First Ward. Now let every one consider, and purchase a lot or Lots for themselves and their families. There is no deception in this property. In a few years it will be all built up. This Murray Addition joins Lockwood's and Gibblen's additions, and what will make the property very valuable and very desirable, is the proposed beautiful City Park that adjoins it. Again I say, purchase any of the lots in Murray's addition, the title is the very best. There is no mortgage on any of his property. Then the terms, on which they are to be sold, are very easy—one fifth cash, balance in 1, 2, 3, and 4 years, with seven per cent. interest.

I consider this one of the grandest, and best opportunities to purchase lots, of any one I have had. Only twenty Speculators and all be on hand, June 18th, at 10 o'clock, at my store.

Je11 CALEB WALL, Land Agent.

City Land Office.

TWO HUNDRED desirable and valuable Lots to be sold in the First Ward, Milwaukee. On Wednesday morning, June 18, at 10 o'clock, I will sell to the highest bidder, on the easiest terms property has ever been sold, all of that desirable plat of Murray's Addition, containing two hundred lots, 8 miles from the City Hall. Persons on the Lockwood and Gibblen's Addition, and joins also the city property which is to be appropriated for a City Park. The lots are all very beautiful, high, and very level over with farm and maple grove; they are one mile this side the Light House. The Plank Avenues are to run through them, in fact it is the most desirable property to make investments in of any property that I have ever sold. The lots are of a good size, forty feet front, one hundred and twenty feet deep, with alley's in the rear. You must all agree with me when I say that the First Ward has the pre-eminence over all wards for beautiful and desirable residences. The lots in Murray's Addition will command as high price in five years as lots do now in Astor, Marshall, Cass and Van Buren streets. There is no reason why they should not; our city is bound to go ahead, she is bound to have a population of one hundred and fifty thousand inhabitants, and the modern style of houses which are now going up in Lockwood & Gibblen's Addition, with the various Parks around, certainly must make lots in Murray's Addition desirable and valuable. At all events there is a great risk in running, and the terms of sale are very easy. The lots will sell low, affording an opportunity to all classes to secure them a home, and when once a home is obtained it never can be taken away, no matter what misfortunes may occur; for our laws are made to protect the widows and orphans, and the unfortunate.—Terms of sale will be one fifth down, balance in 1, 2, 3 and 4 years with 7 per cent interest. The best title in the world. Mr. Murray gets it from Government. I will have one thousand Lithographic maps of said Addition in a few days, which I will give to all who wish one, if they will call at my store

My Boys.

BY ANSON G. CHESTER

The oldest has not finished yet
The third of life's young years;
His eyes are blue as violets
And bright as Evening's tears.
His hair is golden as the beams
That usher in the dawn,
And softer than the trade's are
That plume the growing corn,
His voice is sweeter to my ear
Than lutes or woodland streams,
It rings amid my cares by day
And echoes in my dreams.

He has a hundred pretty ways
Which I delight to see,
I love him next to Heaven and her
Who gave the child to me
And when he nestles to my heart
And calls me by my name—
He only name he knows for me—
I sigh no more for fame,
For think that having such a gem
To wear upon my breast,
Contented should I be to leave
The chaplets for the rest.

My other darling's little life
In months is count ed yet,
His eyes as lustrous as a star,
And black as burnished jet
His hair is brown, like forest leaves
When Autumn's fire se teg n
Four little teeth have l ared to his mouth,
A dimple den's his ch n,
His smile is like the smile that plays
Upon a cherub's face—
He is a cherub, though he makes
My home is dwelling place

No fear that we shall entertain
An angel unawares—
That heavenly look upon his face,
That glory on his hair,
Remind us whence the darling came,
And bid us look forward
That he who let the child to us
Will come to claim his yet

THE FORCE OF HABIT.—A worthy banker whose wife was very delicate, devoted so much of his time and attention to her, that he became the very synonym for conjugal devotion After a time the poor lady died, and in a few days his friends were amazed to meet him at all public amusements and in most charming spirits Some one made so bold as to remark it to him, when he naively replied

"Ah! my dear friend, I expected the sad event so long, that I discounted my grief in advance."

EAST WATER STREET,

Marble Block, one door South of their old Stand.

HAVING recently received an extensive stock, and daily adding to it the latest styles of

SPRING GOODS,

Together with an enormous stock of DOMESTICS, purchased in the Fall at very low figures, with a view of being prepared for the FAIRLY SPRING TRADE, without being subjected to the exorbitant rates of Fall Road charges on such goods as are sold at a fraction above Eastern cost, we are prepared to show, and will be most happy to sell the

MOST COMPLETE AND EXTENSIVE STOCK OF

DRY GOODS,

Ever before offered in the West!

Being connected with several large manufacturing establishments and importing houses at the East, giving us an advantage over any other Mercantile House in the State, and having long resided and done business in this city, and our established principles of doing business being well known to every city and country customer, to be of the most liberal nature, we flatter ourselves that we can say with safety that we consider competition quite out of the question.

We would say to

COUNTRY MERCHANTS

who design going East to purchase that we would as soon as it is in our favor if they would honor us with a call before leaving for New York and Boston, as we feel quite confident that we can convince them that it is to their interest to purchase in Milwaukee

MEDICAL.

DR. WEAVER'S

CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN UNDISPUTABLE FACT THAT The above medicines are the only infallible remedies now before the public for cutaneous eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c

Cases that in most every instance have despaired of relieving, immediately yielded to their active powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer with out a blemish These medicines are too well known to require anything more than a plain statement of facts To those of intelligence in calling at our daily from East, West, North and South, of wonderful cures they are referring to

CARTER, July, June 29, 1855.

I have used Prof Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 19, 1855

Prof O. J Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whatever use it may concern, that I have used it and known others to use it, that I have for several years been in the habits of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to its original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops I would therefore recommend its use to any one in search of having a fine color an l texture of hair.

Respectfully yours,
WILSON, HIDE

A gentleman of Boston writes to his friends in New Bedford, thus

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last 10 years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist I have had my hair cut five or six times since the change, and have noticed no difference in the ordinary growth, same as before, and it is now as thick as it ever was, and does not come out at all It has proved in my case all that I could wish or ask

Yours, &c., ——.

GARDNER, Me., June 22, 1855

Mr Dyer Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair Before using it, I was as grey as a man of seventy My hair has now attained its original color You can recommend it to
